

Rashedul Alam

FULL-STACK SOFTWARE ENGINEER

Dhaka, Bangladesh | +880 1890-642735 | rashedmojammel56@gmail.com
GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Computer Science student focused on full-stack web development, primarily the MERN stack alongside Next.js and javascript. Comfortable working across the frontend and backend — building UIs, designing REST APIs, and working with MongoDB and SQL databases.

EDUCATION

B.Sc. in Computer Science & Engineering American International University-Bangladesh CGPA: 3.68/4.00	2023–2027
Higher Secondary Certificate (HSC) Hathazari Government College, Chattogram	2019–2021
Secondary School Certificate (SSC) Wadudia High School, Chattogram	2018–2019

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Java, Php, C + +, Python
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, NestJS, ASP.NET Core (.NET)
Databases	MongoDB, PostgreSQL, MySQL, SQL Server
Machine Learning	Scikit-learn, Pandas, NumPy, Data Analysis, Data Preprocessing
Tools	Git, GitHub, Docker, Postman, VS Code, Vercel
Core Competencies	Node.js, Express.js, React.js, Next.js, JavaScript, MongoDB, HTML5, CSS3

PROJECTS

Fable — Digital Ebook Sharing Platform <i>Next.js • Node.js • Express.js • MongoDB • Stripe • BetterAuth • Tailwind CSS</i> - Architected and developed a production-ready full-stack ebook sharing platform as a solo project using the MERN stack. - Designed 18+ REST APIs and 6 MongoDB collections with secure authentication and role-based access control. - Improved performance using SSR, dynamic rendering, and optimized data-fetching strategies.	GitHub Live
PetNest — Pet Adoption Platform <i>Next.js • Node.js • Express.js • MongoDB • BetterAuth • Tailwind CSS</i> - Developed and deployed a full-stack pet adoption platform using Next.js and the MERN stack. - Designed scalable REST APIs and MongoDB schemas to manage pet listings and adoption workflows. - Built reusable and responsive UI components following modern React development practices.	GitHub Live
Foodyy — Online Food Ordering System <i>ASP.NET Core MVC • C# • EF Core • SQL Server • Bootstrap</i> - Built a multi-module food ordering system following 3-Tier Architecture using ASP.NET Core MVC. - Applied Repository Pattern and Dependency Injection to improve maintainability and scalability. - Designed relational database schemas and implemented core business logic using Entity Framework Core.	GitHub

CERTIFICATIONS

- Complete Web Development Course (Programming Hero) — 2026
- Data Science & Machine Learning with Python (Ostad) — Ongoing

ACHIEVEMENTS

- Successfully completed the Programming Hero Complete Web Development Course with hands-on experience developing multiple full-stack MERN applications.

EXTRACURRICULAR ACTIVITIES

- Member, IEEE AIUB Student Branch.
- Member, AIUB Robotic Crew.
